2000 Analytical Review DWCCA-6819-PJL

Dear Ms. Aimone:

The Public Service Commission staff is in the process of completing an analytical review of your utility's 2000 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that this review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

- 1. During our review of the meters schedule, we noted that this is the third consecutive year in which there has been basically the same footnote to the meters schedule which says that meters will be tested next year. Please provide a listing of how many meters of what size have been tested this year as well as how many more will be tested before the end of the year.
- 2. Please note that in the future, the income for tower rental for cellular dish which was reported in Account 412 on page F-2 should be reported in Account 474, Other Water Revenues on page W-4.

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 267-9198. Please respond within 30 days of this letter. We prefer that you respond by e-mail if it is convenient

for you to do so. My e-mail address is leegep@psc.state.wi.us. If we have no questions regarding your response, you can consider the review closed.

Sincerely,

Peter J. Leege Financial Specialist Division of Water, Compliance, and Consumer Affairs

WATER OPERATING SECTION FOOTNOTES

Water Operation & Maintenance Expenses (Page W-05)

Repairs of Water Plant (650) Cleaning of the water reservoir was completed during 2000.

Property Tax Equivalent (Water) (Page W-07)

The municipality authorized a lower tax equivalent of \$12,000. The resolution will be mailed under separate cover.

Pumping and Purchased Water Statistics (Page W-10)

Minumum gallons pumped - The utility has fewer days of pumping water than of not pumping water. Most days are zero due to the fact that the utility has a 750,000 gallon tank with only 12 full time users and 1 part time user.

Water Mains (Page W-15)

Mains were financed through special assessments.

Water Services (Page W-16)

Services were financed through special assessments. These assessments are payable over a 10 year period.

Meters (Page W-17)

There were no meters tested during 2000. The utility has been notified of this and will test during 2001.

Hydrants and Distribution System Valves (Page W-18)

Number of distribution valves operated during the year--The utility has beer notified of this and corrective action will be taken.
